## EQUIP YOUR TEAM FOR SUCCESS

**With access to more than 30 HP qualified trainers, you'll invest in your greatest asset, your people.**

Invest in your team and get them certified with training in three levels of the Operator & Maintenance Certification. They'll gain access to a wide range of resources from the Production Management Course and from the HP Knowledge Subscription. This will give them additional training to maintain optimal workflow.

\$

## KEEP YOUR WORKFLOW MOVING

**80% of issues independently resolved with certified operators and 60% of downtime prevented**

Empower your operators to take control with tools and services customized to your needs. With support from HP Service Edge and the HP Smart Uptime Kit, you'll predict issues before they occur and keeping your production running smoothly.

## MAXIMIZE YOUR SERVICE EXPERIENCE

**24/7/365 access to a sales and marketing portal**

Get access to self-paced training, press images and information, and recorded webinars in the HP Advantage Knowledge Center to maximize your investment beyond the press, where and when you need to.

# Fuel your success with confidence

Can you become self-sufficient? Our best advice is to find a partner who offers a full ecosystem for self-diagnostics, predictive press care, remote support and one that encourages self-reliance but is also at your side whenever needed. Insist on talking to existing customers to make sure the vendor is indeed capable of delivering high quality service, regardless of the circumstances.

# Fuel your success with confidence

The coronavirus (COVID-19) crisis has revealed the fragility of the modern supply chain and many are realizing that having a partner with a local service organization is key. Is the service organization there for you - no matter where you are in the world? With the many travel restrictions around the world, a partner who has both local and global capabilities is key.
