

Remote Monitoring with the new HP Print Beat Dashboard

At HP, we know that our clients are struggling with having visibility on their printers' production status while they're absent. Running from one production site to another, from meeting to meeting, it is clearly impossible to be in front of all your printers all the time.

Until now...

Introducing the completely revamped HP Print Beat Dashboard, a remote monitoring solution for optimising and improving your daily and future operations.

You'll now be able to gain full visibility of your operational performance across all sites, so you can:

- Immediately identify any printing issues
- Manage your printers with a full-fleet status on a single screen
- Get full control of your operations for peace of mind and significant cost savings.

The screenshot shows the HP Print Beat Dashboard interface. At the top, there are navigation tabs for Business Units (HP Large Format), Size (VWP), Groups (None), Devices (HP DesignJet Z6 44in...), and Resolution (Today). Below this is a dashboard header with a date/time stamp (Nov 5, 2018 1:54 AM) and a 'Today info: 80 / 1,202 Sqm' summary. A line chart shows production volume over time. Below the chart is a table with columns for STATUS, DETAILS, JOB NAME, CURRENT SUBSTRATE, and PRINT VOLUME (Today). The table lists several printers and their current jobs.

STATUS	DETAILS	JOB NAME	CURRENT SUBSTRATE	PRINT VOLUME (Today)
Printing	HP Latex 3100 VWP (HP LF 3100 Printer) Printer error code 30.05.01.01 + 1	job_2_20181105094000	HP Blue Back Billboard Paper 1.60 meters	11 / 115 Sqm
Drying	HP Latex 570 VWP (HP LF 570 Printer) PMK Threshold level has been reached	expo96_rotated	HP PVC-free Wall Paper 1.37 meters	2 / 20 Sqm
Printing	HP DesignJet Z6 44in - VWP (T8W16A)	job_1_20181105095500	HP Universal Coated Paper 1.52 x 3.00 sqm	0 / 153 Sqm
Drying	HP Latex 1500 VWP (HP LF 1500 Printer)	job_2_20181105093500	HP Light Fabric 1.60 meters	14 / 157 Sqm
Ready	HP Latex 3000 - VWP (HP LF 3000 Printer)	job_1_20181105093000	HP Permanent Gloss Adhesive Vinyl 1.60 meters	14 / 189 Sqm
Ready	HP Latex 315 P&C VWP (HP LF 315 Printer)	job_1_rotated	Generic Backlit Textile 1.37 x 1.45 sqm	1 / 15 Sqm
Printing	HP Latex 3500 VWP (HP LF 3500 Printer)	13 min job_2_20181105095000	HP Dupont Tyvek Banner 1.60 meters	25 / 251 Sqm

All this valuable information is available to you at a glance, with numerous dropdown lists to filter all the critical performance data you need to be on top of the action, no matter how far away you might be.

Remote Monitoring with the new HP Print Beat Dashboard

On top of that, you can now zoom instantly into any of your individual printers by clicking on any line, for access to detailed information on printer daily activity.

Proactively tackle current and emerging issues through constant control of your printer's ink levels, printhead status, loaded substrates and the overall daily print output.

Maybe wondering how your completed jobs have been doing lately? No worries, you can now access a list of your printer's last 20 completed jobs, to know exactly which, when and how a job was done.

HP PrintOS Account

This gives you the chance to track your operators' work by seeing at a glance their job completion by date and time, the amount and type of substrate used, the amount of ink consumed per job, and which print mode was chosen.

Remote Monitoring with the new HP Print Beat Dashboard

Make more informed decisions and involve your team more through detailed real time and historic job completion information, to drive continuous cost efficiency.

And what if we tell you that all the above benefits could be available to you virtually anywhere?

Entering the HP PrintOS Mobile App for Android or iOS, gives you all the benefits of remote monitoring and real-time Analytics of Print Beat, even on-the-go.

You can now view printer jobs status and alerts on issues that might be interrupting production and discover key insights for better decision-making, directly from your HP PrintOS Mobile App.

Yes, you read that right, all the above are now available at your fingertips whenever you want, wherever you are!

And you're in for a treat, as this revolutionary smart printing solution is available to you for free for all HP Latex 100, 300, 500, 1500, 3000 and R-series, as well as for HP DesignJet Z6 or Z9.

To get the best possible experience from Print Beat make sure to have the latest firmware version updated for your HP Latex Printers.

With the reinvented HP Print Beat app, the possibilities for growth are endless!

And this is not all! Head over now to the article on ["Real-Time Analytics with the New HP Print Beat Reports"](#) to find out its full potential!

Are you not in PrintOS yet? Head over to the article on ["How to sign up to HP PrintOS in 3 easy steps"](#) to register your company and your HP Large Format printers in no time.
